Niedersachsen – Your location on the German Coast

The Offshore Wind Power Industry in Niedersachsen

Welcome to Niedersachsen!

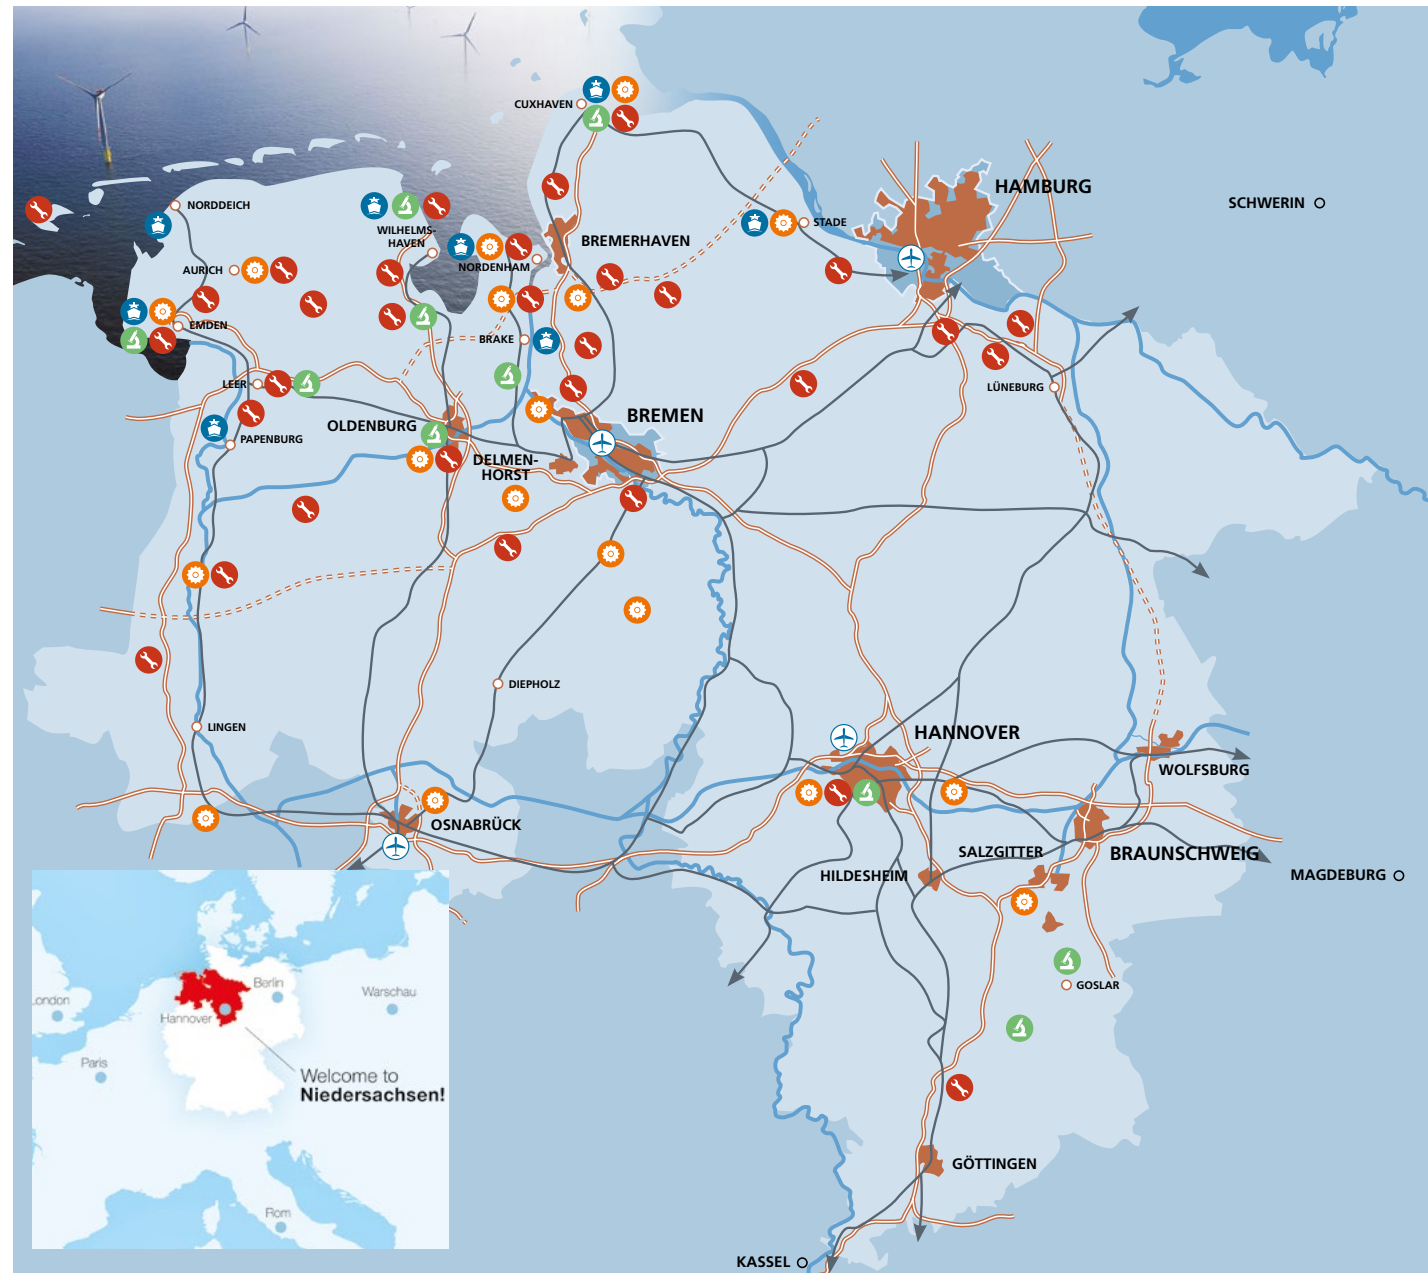

Niedersachsen is the home of pioneers in wind power on land and sea, where a broad spectrum of wind power industries has established itself. From planning and development through finance, manufacturing and installation to operation and maintenance, you'll find excellent partners in Niedersachsen, along with cutting edge research and development facilities devising innovative solutions for the offshore industry.

Niedersachsen has even more to offer: our seaports along the North Sea coast provide ideal infrastructure conditions for the erection and maintenance of offshore wind farms.

Explore for yourself the many possibilities in Niedersachsen's offshore wind sector. The location team at the State Ministry for Economics, Labour and Transport are ready to advise and support you on aspects of planning and practical implementation.

Yours

Olaf Lies
Niedersachsen Minister for
Economics, Labour and Transport
